

GRIP'S GRASP. SHOT IN A JUNGLE

Fastens Its Deadly Clutch Upon Millions.

From East to West, North to South, Everywhere, Evidence of its Presence is Plainly Apparent. Phantom-like it swoops Down Upon its Victims, to some it Deals Death, to Others Something Worse--Shattered and Wrecked Nervous Systems.

LaGrippe is a much more dangerous disease than many have been led to suppose. In its first stages it will yield to proper treatment as readily as any ordinary disorder, but owing to its infectious character, innumerable microbes are deposited and its development into many serious complications is exceedingly rapid and destructive. It leaves the nervous system shattered and wrecked; saps the vitality and renders its victims easy prey to pneumonia, nervous prostration, heart disease, insanity, etc., which invariably prove fatal later on.

Dr. Miles' Restorative Nervine is the grip's most formidable foe, it robs it of its terrors. It goes to the very root of the disease and promptly drives it out. It builds up the worn out tissues and fortifies the system against all depressing after-effects.

Mr. J. M. Allison, 54 Tacoma Ave., Indianapolis, Ind., writes: "A severe attack of LaGrippe shattered my nervous system with such severity that at times I felt that I would go insane. I could not sleep, was restless and my condition was deplorable. I began to think that my case was hopeless, but hearing of Dr. Miles' Nervine I concluded to try it, and now I am satisfied that it saved my life. It brought me sleep and rest, steadied my nerves and promptly restored my health. I have never experienced any AFTER EFFECTS and to Dr. Miles' Restorative Nervine I owe my present good health."

All druggists are authorized to sell Dr. Miles' Nervine on a guarantee that first bottle benefits or money refunded. Be sure you get Dr. Miles' Restorative Nervine. Write us about your troubles and ailments and we will give you the honest advice of a trained specialist absolutely free. Book on heart and nerves sent free.

Reconnoitering Party Fired Upon by the Filipinos Near Caloocan.

THE TOWN IS SHELLED

By United States Gunboats and the Suburbs Burned--Kansas Troops Penetrate the Very Heart of the Place While Driving the Filipinos From Their Position.

Manila, Feb. 8.--Lieutenant A. C. Alford, Company I, Twentieth Kansas Infantry, and a private of that company were killed and six other members of the regiment were wounded near Caloocan last evening while reconnoitering. The party was in a jungle when it was attacked by the enemy.

Two companies of the Kansas regiment were sent to the relief of their comrades and drove the Filipinos into Caloocan, penetrating to the very heart of the town. Meanwhile the gunboats shelled the suburbs.

or wounding of 4,000 men, that he undoubtedly had underestimated the damage inflicted by him, as was his wont, instead of magnifying it in the Spanish fashion.

The officials say nothing more is expected from Otis on the results of the engagement of Saturday night until he has had an opportunity to forward a mail report giving in detail all the history of the fighting. Naturally there was a great deal of speculation as to the future conduct of affairs by Otis, but to some extent this must remain speculation inasmuch as Secretary Alger has said that the general is to be left to follow his own discretion. To assist him to a correct understanding of the diplomatic situation he has been cabled the full text of the peace treaty.

DESPERADOES Who Intended to Co-Operate With Aguinaldo Swarm Manila.

Manila, Feb. 8.--There are many indications that Manila is full of desperadoes who had intended to co-operate with Aguinaldo. The police are continually capturing men and women with weapons concealed in their clothing. The vigilance of the authorities in this respect is highly reassuring.

Last Saturday about midnight two Englishmen accidentally encountered a gang of armed natives in a dark side street. The natives, fearing discovery, threatened to kill them unless they maintained silence.

Many native clerks employed by mercantile houses are missing. It is impossible that they should have passed the lines, the inference is that they are hiding in the city.

Several attempts were made to assassinate Americans on the streets, but that danger is now at a minimum. The natives are terribly cowed and the precautions taken, especially against incendiaries, are admirable.

The rebels, who have been swept in every direction, like pheasants in a battle, die by the hundreds in the trenches--for the most part passively, except the Ygorotes, who charge desperately and uselessly.

The rebel prisoners declare that their attack was unpremeditated, that the outposts fired and then everybody followed in accordance with a sort of general understanding.

FILIPINOS Compelled to Retire to the Mountains of San Mateo.

London, Feb. 8.--The president of the European Filipino junta, in an interview with a representative of the press last evening, said: "It is perfectly clear that the unfortunate hostilities at Manila were occasioned by an attempt of the Nebraskans to find a pretext to obtain control of the Singalong waterworks. The Americans, for months, have endeavored fruitlessly to induce the Filipinos to withdraw from those works, as the latter fully recognized their immense strategic importance. By the destruction of the villages between the sea and the river bank the Americans secured a vast open space, from which Manila might otherwise have been attacked under cover."

"As the Americans have captured the waterworks, the Filipinos will now have to retire to the mountains of San Mateo and Boso Boso, which, as they are only an hour's distance, command the capital, and it will be impossible to dislodge them from there."

"The whole Filipino strength will now be devoted to the protection of the country outside of Manila, as Aguinaldo is aware that, even if he captured the city, he could not hold it with American warships in the bay."

"The Americans will also have to depend for their food supply on shipments from abroad, as the insurgents will effectively cut off the supplies from the interior."

Placed Manila In Safety.

London, Feb. 8.--The Daily Telegraph commenting upon the fighting at Manila, says: "It is quite clear that the Americans have given the Filipino rebels a very sound thrashing at a comparatively small cost to themselves. They have, for the time being, at all events, placed Manila in safety until the reinforcements now enroute reach General Otis. Although the majority of the American soldiers at Manila were volunteers they appear to have fought with as much discipline and gallantry as their regular comrades could have exhibited."

GENERAL EAGAN Suspended From the Army For Six Years.

Washington, Feb. 8.--The president yesterday caused to be promulgated the sentence in the case of General Charles P. Eagan. The courtmartial sentence was dismissal from the army, and the president has commuted this to six years' suspension from duty, which covers the remainder of the time prior to General Eagan's retirement, in January, 1905.

It was stated by the adjutant general that General Eagan's suspension carries him to within a few days of his retirement, under the age limit. He will be reinstated in time to retire with the regular rank and pay provided in such cases. The sentence of suspension, according to legal officers of the department, does not deprive General Eagan of any part of his pay, but as the sentence reads, "Without rank and duty," he loses his allowances, which include commutation of quarters, rations and his horse allowance. This is quite a large financial item.

STARTS FOR HAVANA

Gomez Leaves Remedios and Will Be Met at Matanzas by Proctor.

THE MAINE ANNIVERSARY

Bishop Santander Grants Permission For the Ceremony at Colon Cemetery--No Services Can Be Held Without Permission From Rome--Marines and Sailors In Harbor to Take Part.

Havana, Feb. 8.--Senator Proctor has received a dispatch from General Maximo Gomez saying that he will leave Remedios today for Havana, travelling by way of Sagua and Matanzas city, and arriving here on Thursday. Mr. Proctor left this morning for Matanzas, where he will confer with General Gomez, proceeding thence to Cienfuegos. General Gomez has not communicated to Governor General Brooke any suggestion regarding the plan for the payment of the Cuban troops, but the details of the arrangement will be settled after his arrival. Nothing has been done in the matter thus far.

Commodore Cromwell says he will join cheerfully in the plans of the American women to decorate the graves of the victims of the Maine on the anniversary of the disaster. He explains that his delay in co-operating with them was due to the fact that he did not know whether Admiral Sampson's squadron would arrive before the 15th and therefore could not say what warships would be here. It appears that his inaction has been entirely misunderstood. He conferred yesterday on the subject with Mrs. Estes G. Rathbone, president of the women's committee.

Detachments of marines and sailors from such warships as may be in the harbor will go to the Colon cemetery. The parts that Governor General Brooke, General Lee and General Ludlow are to take will be arranged later. Commodore Cromwell sent an officer to Monsignor Santander, bishop of Havana, to ask permission for the ceremony, which was readily granted, although the bishop said he could not allow a Protestant service in the cemetery without first referring the matter to Rome. As all the ship chaplains here are Protestants, no service will be held. Ropes of laurel and wreaths of immortelles will be hung upon the military mast of the Maine by sailors in the presence of the women's committee.

C. W. Haskins, an expert accountant with two assistants, has arrived here and will make a thorough examination of the books of the municipality under the direction of the special committee now investigating the city's financial condition. The accounts for the last 10 years will be examined with a view of noting the methods followed before there was any idea of foreign intervention. The Havana system will be thoroughly reorganized and placed upon a sound basis for the future.

War Department Has Little Information--Matter Being Investigated.

Washington, Feb. 8.--Regarding the report of a large amount of canned meat being condemned at Havana on Monday little information was obtainable at the war department yesterday. It was said that the matter was being investigated and that reports would have to be awaited through the regular official channels.

It was, however, said that as far back as Feb. 2 the commissary department had been notified by Colonel Smith at Havana that large amounts of canned beef had been reported spoiled. On examination, however, it was found that a few cans in several large lots either had been rusted through or broken in handling, and the offensive odor arising had thrown the whole lot under suspicion. When the bad cans were removed it was said the remainder were found perfectly good.

This explanation, it was thought, might apply also to the condemnation proceedings Monday. It was impossible to state the source of all the supplies at Havana, as the Porto Rican expedition was outfitted for 40,000 men, which number was afterwards greatly reduced, and part of these supplies went to Havana.

SENATE AND HOUSE.

Washington, Feb. 8.--For two hours or more the senate yesterday had the resolution declaratory of a policy of this government in the Philippines under discussion, but no vote was reached and the resolution went finally to the calendar. The Indian appropriation bill was taken up, but had not been completed when the senate adjourned.

Yesterday was set aside in the house for the consideration of public building bills. The committee had reported 78 bills for buildings in 35 states, authorizing in the aggregate an expenditure of \$14,060,900. Little or no opposition developed and bills were favorably acted upon almost as rapidly as they could be read.

Mixed Flour Tax.

Washington, Feb. 8.--The records of the internal revenue bureau show that the total receipts from the tax on mixed flour since Aug. 14, 1898 when the law went into effect, have been \$5,189. The expense of collecting this amount has been \$18,500. The receipts from this source during December, 1898 were \$417 and the cost of collection \$3,360.

TOM JOHNSON'S

Single Tax Propaganda Plans Not Yet Matured.

New York, Feb. 8.--Tom L. Johnson, the well known capitalist and advocate of the Henry George single tax theory, has arrived in this city. He says that Governor Pingree of Michigan accompanied him east only as far as Buffalo, and did not expect to come to New York. Mr. Johnson says he has nothing to add to what he had said before the Manhattan Single Tax club about devoting the rest of his life to the single tax propaganda, adding: "What I said then I meant, but as yet my plans are not fully matured. As soon as they are, I will make a statement announcing my position in detail."

He expects to be here for some time, closing up his business affairs.

ROAD AGENTS

Attempt to Hold Up the Jackson-Tone Stage.

Jackson, Cal., Feb. 8.--A desperate attempt was made yesterday to hold up the Jackson-Tone stage. The stage left here with the driver, Peter Podesta, Messenger McConnell and two workmen on board. When about four miles out two robbers concealed behind rocks on the roadside opened fire, hitting McConnell twice in the shoulder and Podesta once in the hand. The horses were put to a gallop and soon got beyond the range of the robbers' guns. The stage had some treasure from the mines on board, but the shipment was comparatively light.

HEADON COLLISION

Passenger and Freight Train Come Together on the Iron Mountain.

Little Rock, Ark., Feb. 8.--A disastrous head-on collision between a passenger train and an extra freight occurred yesterday on the central division of the St. Louis, Iron Mountain and Southern railroad near Pollock, La. As a result, two men were instantly killed, two were fatally injured, another seriously wounded and several others badly shaken up.

The collision occurred about half way between Patterson switch and Pollock. Both trains were running at a high rate of speed when the crash came and it is miraculous that any person aboard either escaped injury. Engineer Gregory and Fireman McCoy jumped to save their lives after reversing the engine and doing all they could to save their train. They waited too long, however, and were caught in the debris. Engineer Watkins and Fireman Hoyle remained at their posts and were crushed to death in the wreck. It is believed that both Watkins and Hoyle were asleep when the collision occurred.

The extra freight, in charge of Conductor Farrar and Engineer Watkins, had orders to meet the passenger train at Patterson Spur. The crew was evidently asleep, as no stop was made at the meeting point and the train was running at a rapid rate when a few miles past the switch it crashed into the passenger train. Both engines were badly wrecked. The baggage car was completely telescoped by the express car. Baggage man Baker was caught in the wreckage and terribly wounded. No passengers injured.

GARDNER WINS

Omaha Kid Defeats Solly Smith In Six Rounds.

New York, Feb. 8.--Oscar Gardner, the Omaha Kid, defeated Solly Smith of Los Angeles very easily in six rounds at the Lenox Athletic club last night. Smith was unsteady on his feet from the opening round and was unusually wild. Some persons thought that he was under influence of some drug, but those close to his corner were unable to say whether this was so or not. Gardner was not in the best of condition either, but he fought remarkably well and outclassed his opponent from the first tap of the bell.

In the sixth round Smith went down four times and as he was going down the last time Oscar sent a right smash to the jaw which did not land until Smith was on his knees.

Smith rolled over on his back and was counted out, while his seconds yelled "foul" and many of the spectators took up the cry. The blow was on its way as Smith was going and could not be held back by Gardner, who had no intention of fouling. Referee White ruled that no foul had occurred and decided in Gardner's favor.

Rendville, O., Feb. 8.--The miners here who have been on a strike for some months have broken away from the United Mineworkers' organization and gone to work at 45 cents, 21 cents less than the scale. An effort has been made to hold them in line, but the national organization is said to have failed to come to the relief of the strikers, so that they felt there was nothing left for them to do. In connection with this affair there is much talk in regard to the figure Ohio cut in the recent Pittsburg convention. There is much talk to the effect that Ohio will hereafter care for her own.

Cause of the Manila Battle.

Washington, Feb. 8.--It may be that it was Admiral Dewey's act in seizing a vessel loaded with arms and ammunition intended for them that incited the Philippine insurgents to attack the American soldiers Saturday night, for it is understood that one of the bitterest of their grievances was what they declared to be unwarrantable interference with their shipping. It is learned at the navy department that about a week ago the admiral caused the seizure of the schooner Tanang with a full supply of such arms for the insurgents. The admiral's report discloses the fact that an American and not a German owned the vessel thus being used to arm the insurgents against Otis' troops.

A state veterinarian would be a luxury that we can get along very nicely without.

REPRESENTATIVE Downey's bill to require every druggist to take out a county license if he sells liquor was reported unfavorably by the temperance committee as it should have been. The druggists should not be required to take out retail license which this law would practically amount to.

SINCE the people have been given some figures the past few days, showing the relative cost of education at the state schools and the non state schools the authorities of the former have felt called on to explain. They say that the per capita expense at Indiana University is not so great as the University of Chicago or Stanford University with their millions of endowment. The taxpayers of the state do not want them to be so expensive. There is no need of it. In making comparisons why do they not cite some of the great institutions of the country where economy is practiced as well as taught?

How Mrs. Pinkham HELPED MRS. GOODEN.

[LETTER TO MRS. PINKHAM NO. 12733]

"I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course I became no better and finally broke down entirely. My troubles began with inflammation and hemorrhages from the kidneys, then inflammation, congestion and falling of the womb and inflammation of ovaries. "I underwent local treatment every day for some time; then after nearly two months the doctor gave me permission to go back to work. I went back, but in less than a week was compelled to give up and go to bed. On breaking down the second time, I decided to let doctors and their medicine alone and try your remedies. Before the first bottle was gone I felt the effects of it. Three bottles of Lydia E. Pinkham's Vegetable Compound and a package of her Sanative Wash did me more good than all the doctors' treatments and medicine. "The first remark that greets me now is 'How much better you look' and you may be sure I never hesitate to tell the cause of my health."—MRS. E. J. GOODEN, ACKLEY, I.A.

STATE LAWMAKERS

Township Reform Bill Passed to Engrossment in the Senate.

TO ARM THE PRISONER

Senator Purcell Introduces an Anti-Lynching Bill Which Provides For Self-Defense by the Alleged Criminal. Bills Passed by Both Houses—Action on County Seat Bill Reconsidered.

Indianapolis, Feb. 8.—The township reform bill, which had consumed over a day and a half of the senate's time on second reading, was finally engrossed yesterday, after a number of minor amendments were passed.

The principal amendment adopted was striking out section 10 of the printed bill, and the substitution of a section which provides that when a person has been an applicant to the township trustee for aid frequently for two consecutive years, he shall thereafter receive his aid from the poor asylum.

Senator New, who introduced the bill for the county and township commission, moved to suspend the constitutional rules and pass the bill immediately, in view of the fact that the bill has been considered by sections, almost line by line, and that the senate understood the bill better than they would if it rested for a week. Many senators protested, however, and the motion was withdrawn.

The antilynching bill by Mr. James (Dem.) was passed by the house. It provides for a reward of \$500 for the detection, arrest and conviction of any person charged with participating in a lynching or a murder where the officials are in the dark concerning the perpetrators of either such crime.

The Beardsley antilynching bill providing that the next of kin to the person lynched might recover \$10,000 damages from the county was unfavorably reported.

Another antilynching bill was introduced in the senate by Senator Purcell, providing that when a mob attacks a jail to lynch a prisoner the sheriff shall securely lock the prisoner's cell and furnish him with a Winchester rifle, a .45-caliber revolver and 150 rounds of ammunition.

Senator Culbert's bill for the employment of convict labor in the state prison at Michigan City was taken up on second reading by the house, the constitutional rules suspended and the bill passed. It is similar to the Sheldahl bill. The senate passed under suspension of the rules the following bills: The bill for a general system of township and traveling libraries, and creating the state library commission; appropriating \$1,500 for the temporary care of the criminal insane in the state prison; prohibiting the importation into Indiana of dependent children except by permission of the state board of charities; to prevent the pollution of streams by manufacturing concerns.

Among the bills passed by the house are the following: To prevent the dissemination of the San Jose scale; for the revision of the statute laws of Indiana, and creating a board for the purpose; authorizing cities and towns to condemn property for sewerage; authorizing the appointment of a state commissioner of fisheries and game; for the incorporation of life insurance companies on either the stock or mutual plans.

The latter bill provides for a legal reserve for the protection of policyholders, to be deposited by the insurance companies with the auditor of state.

The county seat bill came up on motion to reconsider the vote by which the committee report was rejected recommending a requirement of 65 per cent of the vote of the county to make a change. The report was adopted.

In a Single Night as a Result of Severe Pain in the Head.

Washington, Ind., Feb. 8.—Fred Scoble, a prosperous merchant of this city, upon retiring at night, complained of a severe pain in his face and head. After a time he fell asleep. In the morning the pain had disappeared, but upon making his toilet he discovered that his hair had turned white, in which condition it still remains. Many of his friends did not recognize him, so startling was the change. Mr. Scoble is unable to account for the sudden change.

WINE OF CARDUI

How a Woman Suffers.

I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.

Mrs. MINNIE STODGHILL.

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhoea. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.

A Small Blaze.

At 10 o'clock this forenoon the fire bell announced a fire in the first ward A frame house on Indianapolis avenue between Sixth and Seventh street and occupied by Mrs. Dora Wieneke and Frank Rosebury and family caught fire from a defective flue and was making some headway when discovered. Prompt assistance came from the neighbors and extinguished the flames before the department arrived.

The fire was in t at part of the house occupied by Mrs. Wieneke and her goods were removed in a few minutes after the alarm was sounded. The total damage to the house and goods was about \$50 and part of this was caused by the falling of the flue. The house belonged to the Spray heirs and is looked after by Phil Laugel.

CROTHERSVILLE COMMERCIAL

No Longer the Property of E. M. Young.

For several days E. M. Young has been trying to sell the Crothersville Commercial and has been negotiating with Brownstown parties who wanted a newspaper. Tuesday he closed a deal with these parties and transferred the office and business to them. Omer Cooley, formerly of the Banner office, it is understood, will be in charge of the office under the new ownership, having put some money into the plant himself.

Mr. Young now having disposed of all his business interests at Crothersville will return to Seymour.

Opposition Apparent.

For the past few days in has been rumored that there was probability of the room now occupied by Joe Hibner being rented for a saloon. It is now said that the room has been rented to a man by the name of Crabb and that he will have his notice of application published this week. Already it is apparent that opposition to the location of a saloon there will arise to trouble the applicant before a license is granted to him. The people, so far as we understand the existing sentiment, are averse to a saloon being put in there and would not be slow to so express themselves as is their right. Their will should prevail and if it does the application for license will be rejected.

DIED.

WHITSELL—Mrs. George Whitsell, residing east of Cana, died Friday, Feb. 3, of grip and pneumonia, aged about sixty years. She had a number of friends in Seymour.

True Economy.

The cheapest baking powder made is Cleveland's; not because its first cost is less than that of others, but because it is stronger.

Instead of heaping teaspoonfuls of other baking powders, use only rounded spoonfuls of Cleveland's and you will find that a can of Cleveland's will last almost as long as two pounds of low-priced powders.

Besides, Cleveland's is a pure cream of tartar powder and you run no risk of injuring the health of your family.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

FREETOWN.

Richard Acton and wife are sick.

Mrs. Ida McKain is getting weaker with no hope of recovery.

Michael Unger, of Columbus, put up a hundred dollar monument Tuesday at the grave of James H. Lucas.

May Lucas who has been very sick since last Saturday is improving. Her little brother Leland has been sick also.

Vincent Lockman received a telegram informing him of the death of his brother, J. W., who died on Saturday Feb. 4 at Waynesburg.

Miss Effie Lucas entertained about 25 of her young friends Saturday night. She is now visiting her aunt near Leesville before she goes to St. Louis.

While Walter Braman was returning home from church Monday night his horses ran away, breaking loose from the sleigh and tearing things up generally. One of the horses ran against a tree and injured its head badly. Walter seems to think it is rather expensive to take young ladies sleighing. No one was hurt.

Aaron Pruitt, another veteran of the late rebellion, is dead. He was born in Washington county, Jan. 27, 1838. Died Jan. 31st, 1899, aged 61 years and four days. He enlisted in the 50th regt. Ind. Vols. in Sept. 1861. Served three years and re-enlisted. He also served in the 62nd Ind. He became a member of the Christian church 30 years ago and lived a peaceful christian life. He was married to Miss Nora Hunsucker Aug. 3rd, 1884. At his request he was laid to rest by his late comrades. He leaves a wife, two sons and a daughter to mourn his loss. He was respected by all who knew him. His bereaved family have the sympathy of all who knew him. The widow requests us to extend thanks to friends and neighbors for their kindness during his sickness.

DO YOU KNOW

All About Morrow's Kid-ne-olds.

You do not know if you have never used them or know of some one who has. If you know of some one who has, we are sure they are speaking words of praise for them. It is necessary for you to use them as we direct. We only charge you fifty cents for a weeks or ten days' treatment. Is this not worth your consideration? Hard work is what tel son a lame back.

John Downey, blacksmith at 313 West street Madison, Ind., related the following experience: "I deem it a pleasure to make public my experience, for I am sure that others are passing through just what I have, and if I can help them, I consider it my duty to do so. For eighteen months I passed through pain and suffering constantly on account of kidney complaint. At times the pain in the small of my back was so intense that I could not work at my business. I consulted a physician and he said that my kidneys were affected and that I had lumbago. His treatment was a battery which he applied to my back but I got no relief and my disease progressed rather than improved, which greatly alarmed me. When Morrow's Kid-ne-olds appeared with strong proof of their curative qualities I procured a box at the drug store and used them as directed. Three days' time brought relief and by continuing them, I am today perfectly well, all signs of kidney complaint and lumbago having left me. I work daily at my trade without feeling the least smart or of my former trouble. I desire my friends or any interested person to call upon me and learn more about this wonderful cure. Morrow's Kid-ne-olds."

Mr. Downey has the confidence of many people in Madison and is a well known citizen. Try them if you like, for Alpha Cox, the druggist, has a good supply, price 50 cents a box, six boxes for \$2.50. Always Yellow Tablets, never nasty pills. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

Chamberlain's Cough Remedy in Chicago.

Higgen Bros., the popular South Side druggists, corner 69th-st. and Wentworth-av., say: "We sell a great deal of Chamberlain's Cough Remedy, and find that it gives the most satisfactory results, especially among children for severe colds and croup." For sale by C. W. Milhous.

SPRAYTOWN.

We are having some fine winter weather.

W. H. Slater made a business trip to Seymour Monday.

A large herd of mules, about a hundred passed through here last week.

M. L. Weekly went to North Vernon Monday to transact business with Tripp Bros.

Wm. Williams was attacked by a severe chill Sunday, the result of being in the so-much-talked-of Egypt.

An Important Question.

If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases. No matter what other medicines have failed to do, try Otto's Cure. Large sizes 25c and 50c. Sold by all druggists.

There is a Class of People.

Who are injured by the use of coffee. Recently there has been placed in all grocery stores a new preparation called GRAIN-O made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 10c as much. Children can drink it without great benefit. 15c and 25c. per package. Try it. Ask for GRAIN-O.

Reduced Rates.

To New Orleans and return account Mardi Gras festivities the Southern Indiana railway will sell tickets from Feb. 6 to 13 inclusive; good returning up to and including Feb. 28, at the exceedingly low rate of one fare for the round trip. H. H. Roseman, Gen. Pass. Agt., Bedford, Ind. J. M. Clark, ticket agent Seymour.

A Common Danger.

If you ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Sold by all druggists. Prices 25c and 50c per bottle.

Dangers of the Grip.

The greatest danger from LaGrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by C. W. Milhous.

Lung Irritation

Is the forerunner to consumption. Bell's Pine-Tar-Honey will cure it, and give such strength to the lungs that a cough or a cold will not settle there. Fifty-five cents at all good druggists.

Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 1/2 the price of coffee. 15c. and 25c. per package old by all grocers.

What do the Children Drink.

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1/2 as much. All grocers sell it. 15c. and 25c.
